

I have been a K-LOVE listener and financial supporter for several years. This radio station is all I listen to as I am assured of positive and encouraging talk and music and feel confident there is nothing my children will hear that will be distressing. Words fall very short to say all this station has meant to me and my family and all the people who I know listen to it over the years. It would be a devastating loss to the community should it go off the air. Clearly it is in the public and my specific community interest to continue to have a family oriented, spiritually uplifting radio station. PLEASE do not give us LPFM. Thank you for reading these comments.
